

Photovoltaic panel decline list

Overview

Leading residential solar firms like Solcius, Pink Energy, Vision Solar, and Sungevity have filed for bankruptcy. The solar industry experienced exponential growth over the last decade as costs fell and favorable policies helped drive mass adoption. However, 2024 has brought immense challenges, with higher interest rates, tighter financing, and adverse policy shifts in key states contributing to over 100 solar. Over the past ten years, solar power surged into the mainstream as falling prices and supportive regulations made it more accessible than ever. But 2024 has marked a sharp turn. DC Solar was shut down as a Ponzi scheme. So why are solar companies going out of business in what should be a boom market?

A. dc • China continued to dominate the global market, representing ~60% of 2024 installs, up 52% y/y. The rest of the world was up 11% y/y. • The IEA reported Pakistan's rapid rise to fourth place in annual global PV deployment in 2024, with 17 GW dc dcinstalled. In a shock for the industry, the latest draft of the One Big Beautiful Bill Act excludes residential solar lease providers from the Investment Tax Credit.
