

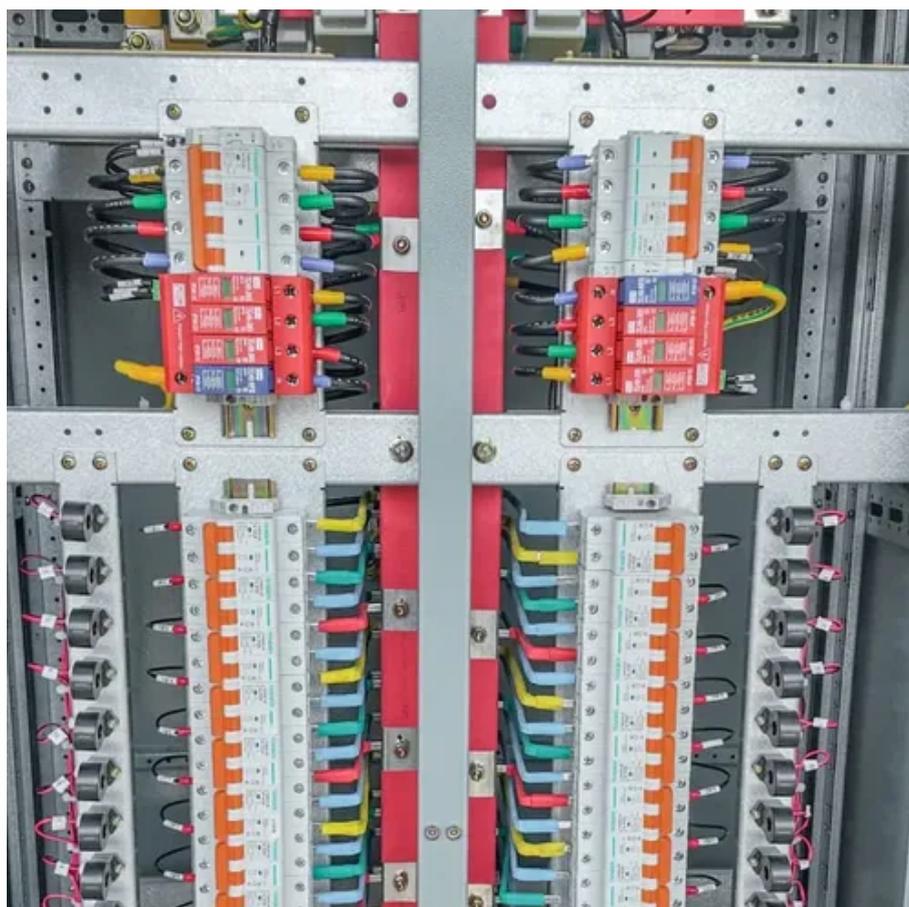

Photovoltaic panels are guaranteed for several years and can be replaced for free

Overview

The product warranty provides complimentary replacement of your solar panels in case of malfunction caused by material or workmanship defects. The duration of coverage differs based on the brand and product, but the solar industry typically offers warranties of 10 years or longer. A solar panel warranty is a guarantee from a solar installer that it'll repair or replace your system if certain issues arise within a specified time period after the system has been installed. Solar panels are designed to last for decades, often 25 years or more. Unfortunately, not all solar.
