

Portable Modular Battery Cabinet for Substations

Portable Modular Battery Cabinet for Substations

Battery Cabinets for Substations

Our battery cabinets may be designed as self-contained DC systems to house the battery charger, battery, disconnect, DC distribution panelboards and even customer supplied equipment.

Electrical Houses (eHouse)

ABB eHouses are prefabricated transportable substations, designed to house medium voltage and low voltage switchgear, critical power equipment and automation cabinets. An eHouse solution is a cost effective, risk ...

Battery Enclosures & Cabinets

Battery enclosure boxes also feature locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment. Our battery enclosures can be pole ...

GVSMODBC6

Modular battery cabinet for extended runtime for UPSs with internal batteries. The cabinet is supplied without batteries, so batteries must be purchased separately. Up to six battery strings can be installed and ...

[E-Houses , MCC Buildings , Switchgear Houses , Substation Buildings](#)

Containerhouse can supply with house electrical only, or even install and wire customer-supplied equipment. This is a custom built 20ft container, equipped with an exterior mounted 1 ton AC unit to keep both ...

Prefabricated power solutions

Siemens Energy's portable power solutions consist of self-contained "plug and play" switching stations built as fully mobile substation on a trailer or semi-permanent on a skid or inside a shelter as an "E-house".

[Prefabricated electrical buildings , Electrical skids , E-house , Eaton](#)

A substation power center is a custom-designed sheltered aisle, outdoor metal-clad switchgear enclosure for utility and substation applications that combines distribution and controls into one enclosure.

Outdoor Battery Cabinet,

HindlePower , HindlePower

Modular Design Outdoor NEMA 3R modular design easily expands and can accommodate any configuration of batteries and DC power equipment. This becomes a great alternative for substations with limited interior ...

GVSUPS75KFS

Highly efficient, easy-to-deploy 75kW, 208V 3-phase UPS that brings best-in-class power protection and low total cost of ownership to edge, small and medium data centers, as well as to critical infrastructure in ...

[E-House-Prefabricated Substation, Skids and Mobile Substation](#)

Mobile E-Houses are installed on trailers as portable substations. All 3 E-House types can solve various project challenges and support on common sustainability goals.
