

Portable solar container system Equipment Factory

Overview

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability. Pre-assembled containers with fold solar panel. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar. We make mobile solar containers easy to transport, install and use. It is the perfect alternative to unstable grid power and diesel generators, keeping operations running even in remote areas or where infrastructure is weak. It's not only meant to transport PVs but also to unfold them on site. The efficient hydraulic system helps quickly prepare the Solar to work.
