

Price of clean photovoltaic panels

Overview

Most homeowners spend between \$12,600 and \$33,376 to install a complete residential solar system in 2026, with the national average at \$19,873 before incentives. Photovoltaic (PV) solar panels, the sleek installations you see on rooftops from California to North Carolina, are no longer niche or experimental. They're mainstream, and for many households, they're one of the smartest long-term investments you can make. It can also lower your monthly electric bill.
