

Price quote for a 20kW outdoor telecom enclosure for use on us islands

Overview

Prices for outdoor telecom cabinets as of 2025 can run anywhere from \$900 to \$5,000, depending on design, materials, and integrated systems. Let's break that down: Why such a wide range?

Because not all cabinets serve the same function. This affordable, high-quality fiber distribution hub features a low-profile design, providing an attractive enclosure for rural and residential deployments. The AP Liberty™ can service up to 576 homes from a single cabinet. This patented enclosure is the industry's first below-grade, single-handle. If you have ever wondered why prices for telecom outdoor enclosures can be so different or whether it is worth investing in a solar telecom cabinet, here is the guide that explains all of this in detail. What is an outdoor telecom cabinet?

Before jumping into costs, let's clarify what we are. Westell is excited to announce our new interactive portal to showcase our brand new fiber FDH Enclosures as well as our longstanding robust Outside Plant Enclosures and Integration Capabilities. Designed to protect your equipment from rain, dust, and extreme temperatures, our waterproof and customizable solutions ensure reliability in any environment.
