

Price quote for solar inverter and combiner box

Overview

Read on for our expert reviews of the best solar combiner boxes available. A solar combiner box typically costs between \$100 and \$1,000, with several factors influencing this range, including the box's capacity, features, and manufacturer. The type of installation also greatly impacts cost; for example, commercial systems generally require more robust and higher-priced. Combiner Boxes provide a secure, economical and code compliant method of combining multiple PV source circuits into one circuit. The combiner box also provides a convenient location to begin the necessary conduit run from the PV array to the power conditioning equipment. It also improves overall safety and ease of installation.
