

Qatar electricity policy

Overview

The QNRES emphasizes an ambitious goal that aims to increase renewable energy's share of the power mix from its current 5 percent to 18 percent by 2030. Currently thermal electricity generating stations account for more than 90 percent of Qatar's total capacity. The plan envisions a significant expansion of renewable electricity backed by low-cost natural. The Qatar General Electricity and Water Corporation (KAHRAMAA) has recently launched the Qatar National Renewable Energy Strategy (QNRES).

Qatar electricity policy

New National Strategy to Embrace Renewable Energy

The strategy aims to increase and diversify the utilisation of renewable energy sources in Qatar, integrating them into the energy mix due to the high-quality solar energy resources available.
