

Rural solar power generation stocks

Overview

In this article, we'll cover the eight best green energy penny stocks that trade on major U.S. exchanges. If you're looking for low-priced ways to ride the clean energy wave, this list is a solid place to start. The solar industry faced a 24% year-over-year decline in second-quarter 2025 installations, with all segments except commercial solar shrinking due to unfavorable federal policies and trade challenges. However, not all have strategies designed to enhance value for their shareholders. Currently, less than 4% of all U.S. solar companies are profitable.
