

# Service Quality of Large-Scale External Energy Storage Cabinets for Chemical Plant Users

## Overview

---

Machan offers comprehensive solutions for the manufacture of energy storage enclosures. We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM. The International Renewable Energy Agency predicts that with current national policies, targets and energy plans, global renewable energy shares are expected to reach 36% and 3400 GWh of stationary energy storage by 2050. However, IRENA Energy Transformation Scenario forecasts that these targets. Energy Storage Systems (ESS) are designed to store electrical energy for later use, balancing supply and demand.
