

Sierra leone solar telecom integrated cabinet wind and solar complementary address

Overview

The designed solar PV-wind hybrid system is now supplying power to a standalone drip irrigation system, indoor and outdoor light bulbs, and a mobile phone charging station in Fonima village, Northern Sierra Leone. Freetown, 5th June 2025: In a pivotal step towards national development and sustainable energy access, H. President Julius Maada Bio, President of Sierra Leone, officially launched the Salone Off-Grid Renewable Energy Acceleration (SOGREA) Initiative. We provide sustainable energy systems for various businesses which can range from domestic and small businesses to industrial and commercial organisations in both urban and rural settings. At ELTREE SL Limited, we are committed to bridging the energy gap by providing reliable and affordable solar solutions. These include solar components (solar panels, inverters, batteries), off-grid and grid-tie solar systems for commercial, industrial and residential applications, battery energy storage systems, energy efficient. Case study from Sierra Leone - Containerized power asset solutions for solar off-grid mini-grids Sierra Leone's challenging socio-economic context includes high poverty rates, particularly among children, unemployment, a serious lack of healthcare and limited access to electricity [1].
