

Small-scale government procurement of IP65 battery cabinets

Overview

This document is meant to be used as a customizable template for federal government agencies seeking to procure lithium-ion battery energy storage systems (BESS). The checklist items contained within are intended for use in procurement of commercial scale lithium-ion BESS, although they may be checklist descriptive • Microgrid S . APEX Accelerators are an official government contracting resource for small businesses. APEX Accelerators are funded in part through a cooperative agreement with the Department of Energy. Recognizing the scale of this industry challenge, the United States (U.) Department of Energy (DOE) Grid Deployment Office (GDO) and Office of Cybersecurity Energy Security and Emergency Response have launched a multi-year BESS supply-chain security initiative to identify consequence-driven. From compact systems to grid-scale storage, our fire-safe (fully-submerged) immersion cooling technology ensures BESS reliability, resilience, and scalability, delivering performance and long-term efficiency.
