

# Solar panel prices in Luxembourg

## Overview

---

For a standard 5 kWp roof in Luxembourg, the total cost excluding grants is between €10,750 and €11,500. It increases with the size of the installation. It is generally necessary to count between €2,100 and €2,300 per kWp (kilowatt-peak or peak power) of photovoltaic cells (taking into account the total cost: supports, fixing, panels, inverters, etc). Most of the time, you want a simple answer: how much does it cost, and how much is left to pay after subsidies. Let's break down pricing, subsidies, and smart strategies to make your transition affordable. If you're asking "how much does the new photovoltaic panels cost in Luxembourg City?"

no, you're not. Luxembourg has introduced a major change to how it subsidises solar panels on residential buildings, making it simpler and more affordable for homeowners and building owners. From January 4, the government now lets homeowners receive their subsidy directly through the installer's invoice, removing the need for a separate application. Investing in photovoltaics is investing in your future and the planet's. By leaving your details, you benefit from:  A Free Consultation - Our
