

Solar power satellite factory in Italy

Overview

The factory — one of Europe's largest intelligent, digital, reconfigurable manufacturing facilities — is located at the Tecnopolo Tiburtino high-tech innovation hub in Rome. Rome, October 7, 2025 - Thales Alenia Space, a joint venture between Thales (67%) and Leonardo (33%), has today inaugurated its Space Smart Factory in Rome with a ceremony attended by Italian President Sergio Mattarella. It greatly expands jobs, production, and Europe's technological edge in the global space sector. Italy got its own shiny new Space Smart Factory. This partnership between the Italian Space Agency and the Italian-French commercial JV Thales Alenia Space will kick off operations later this year.
