

Solar power station in China s desert

Overview

China has just turned on a world-first solar thermal power plant in the Gobi Desert, a move that could change the way solar energy is produced. The numbers tell much of the story of the Midong solar farm. The installation, located in Urumqi in the northwestern region of. Once a coal mining site, the Otog Front Banner, Ordos in Inner Mongolia is now home to the Mengxi Blue Ocean Photovoltaic Power Station, China's largest single-capacity solar power plant. The facility is designed to generate 5.

Solar power station in China s desert

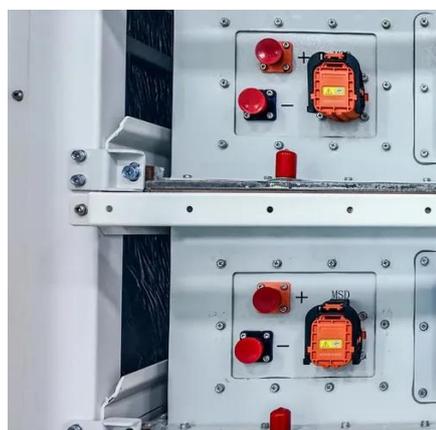

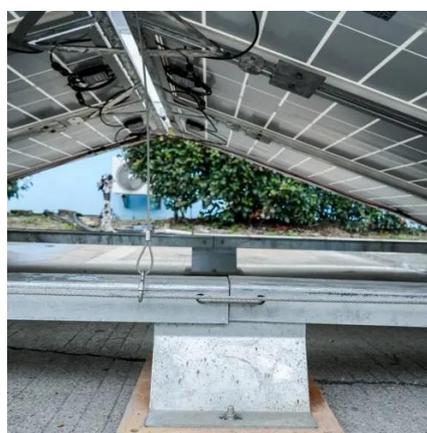

[The solar Great Wall: China's massive desert project](#)

As part of its long-term plan to create a "solar Great Wall," China is pressing ahead with a giant renewable energy project to electrify Beijing and reverse desertification.

[Solar power project transforms desert into energy hub](#)

The Junma solar power station -- "Junma" meaning "fine horse" in Chinese -- is part of an ambitious desert reclamation project known as the "great photovoltaic wall," stretching along the ...

[Solar by the Numbers: Midong Is China's Latest Mega-Marvel](#)

It's the largest single-unit solar power station in the world, and covers a staggering 200,000 acres [312 square miles] of desert.

[Glimmering sea of solar as China expands desert installation](#)

ORDOS, China -- An ocean of blue solar panels ripples across the ocher dunes of Inner Mongolia's Kubuqi desert, a glittering example of China's almost inconceivably mammoth energy ...
