

# The battery cabinet keeps ringing

## Overview

---

From basic steps like cleaning the button and charging the battery, to more technical solutions like updating firmware, adjusting app settings, checking wiring, or even installing a diode, our comprehensive guide will help you restore tranquility to your doorstep. Identify and resolve issues with unresponsive Ring devices. It doesn't enter Setup Mode when you press the setup button. Make sure to. There could be several reasons why your wireless doorbell might be ringing by itself, including: Radio Interference: Wireless doorbells send a radio signal when the button is pressed. If other devices in the area operate on the same frequency, this can cause interference, and the doorbell may ring. For some reason once I disconnected the battery the box started to ring constantly and only stops if I reconnect the battery. The box I have is an Alcatel Lucent box from 2014. Anyone know a fix to this issue?

Thanks in advance! Are you able to see a model number?

It sounds like it may be the white. This issue can occur with wired Nest doorbells.
