

The resort uses Ayoun solar-powered container with a capacity of 500kWh

Overview

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates. Why should you choose a solar storage container?

Customize your container according to. SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects. Transportable via standard shipping container, the system achieves full operational capability within 4-6. (TANFON 2.5MW solar energy storage project in Chad) This scheme is applicable to the distribution system composed of photovoltaic, energy storage, power load and power grid (generator).
