

Tunisia s new power storage policy

Overview

Tunisia has launched a groundbreaking subsidy program targeting energy storage systems, aiming to achieve 30% renewable energy integration by 2030. This policy directly addresses the nation's \$200 million annual energy import costs while creating opportunities for: The government offers. TUNIS, November 11, 2025 — The World Bank and the Government of Tunisia have concluded a financing agreement to support Tunisia's energy sector modernization agenda through the Tunisia Energy Reliability, Efficiency, and Governance Improvement Program (TEREG). This five-year program of US\$430. The integration of these variable energy sources into national energy grids will largely depend on storage technologies, and among World Bank Invites Consultants For Tunisian Solar & Storage The World Bank has launched a call for interested consultants to conduct a technical study for a 350 MW to. To address these challenges, Tunisia has set ambitious targets : Reducing carbon intensity by 45% by 2030 and increasing renewable energy's (RE) share to 35% of electricity production. Our mission is to create change toward sustainable futures that protect. is is a setback for efforts to tackle climate change. In fact, it can be a turning point towards a cleaner and more secure energy system, thanks to the unprecedented response from governments around the world, as registered by the IEA in the Stated Policies Scenario (SPS), the Announced Pledges.

Have its own back-up power supply system to maintain protection in the event of a loss of primary power to the fire suppression system and should self-diagnose and report the presence and general ...

TAX FREE

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
