

Vatican city backup power

Overview

VATICAN CITY (CNS) – Pope Francis appointed two special commissioners to start work on building a dual-use solar system on a Vatican property outside of Rome that could supply the whole of Vatican City's energy needs. On May 29, 2025, the Vatican City officially transitioned to solar power, marking a significant shift in the European energy landscape. This project was. ROME (AP) — Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world's first. On July 31, at the historic Palazzo Borromeo, the Holy See and the Italian Republic signed a landmark agreement to build an agrivoltaic system in Santa Maria di Galeria. Photo: Vatican Media According to the Vatican's press office, the installation will apply the most advanced solutions currently. The Vatican City, the heart of the Catholic Church and a symbol of religious heritage, is becoming a beacon of modern sustainable practices with its adoption of solar energy. Several church organizations around the world are making the move to solar.
