

Which East Asian solar inverter to choose

Overview

This article dissects the strengths, weaknesses, and evolving dynamics between European and Asian solar inverter manufacturers, providing actionable insights for businesses and consumers navigating this critical renewable energy component. In 2023, Huawei won the Intersolar Award for its product The Sun2000-330KTL, a powerful, yet low-cost, string-inverter for large-scale solar PV installations. brands like SMA, Fronius. When looking for the best solar inverter brands to provide you with this equipment, you might think about looking for them in the Western hemisphere or Europe, considering brands like Schneider Electric. However, wouldn't this cost you so much?

Look no further than getting them from the Southeast. Southeast Asia is composed of 11 countries including Myanmar, Thailand, Cambodia, etc., and each country has different voltage standards. The main voltage is distributed within 220-240V, but the Philippines and some parts of Vietnam use 110V or 120V.
