

# Who is the company that uses wind and solar power to complement Uruguay s communication base stations

## Overview

---

In Uruguay, Atlantica operates solar and wind power plants with a combined installed capacity of 160 MW, reinforcing its strong relationship with UTE—a reliable counterparty with high credit ratings from major agencies, including S&P, Moody's, and Fitch. Uruguay was the first country of the Akuo's geographical diversification back in 2007: already at that time, Akuo was deeply convinced by the transformation strength in this country. Akuo structured its local Uruguayan subsidiary in 2008, focusing on the development, construction and operation of. As part of climate mitigation measures and an energy transformation, Uruguay has converted over 98% of its electrical grid to sustainable energy sources (primarily solar, wind, and hydro). This transmission line, operational since 2019, is under a lease agreement with Uruguay's state-run electricity company, UTE. While many nations pledge to embrace renewable energy, Uruguay stands out as a beacon of success, having achieved an impressive 98% renewable electricity generation. This South American country of 3. By 2021, the country had installed 1,514 MW of wind power, 258 MW of solar capacity, and 1,538 MW of hydroelectric power.
